Summary

Focused B.Tech student and Backend Developer with strong expertise in **C++**, **JavaScript**, **Node.js**, and **MERN stack**. Experienced in building scalable web applications, REST APIs, and AI-integrated systems. Skilled in **JWT authentication**, **database management**, and **API development**. Solved **200+ DSA problems on LeetCode** with strong problem-solving ability.

Experience

Backend Developer June 2026 – Present
Softevia

- Developing and maintaining backend services using **Node.js**, **Express.js**, and **MySQL**.
- Designing and implementing **RESTful APIs** for scalable web applications.
- Handling **authentication and authorization** using **JWT**.
- Collaborating with frontend developers to ensure seamless API integration.
- Optimizing database queries to improve performance and efficiency.

Education

Year	Degree/Certificate	Institute	CGPA/Percentage
2023 – 2027	B.Tech Computer Science (AI & ML)	Moradabad Institute of Technology	7.6 CGPA
2022	CBSE (XII)	Adam Eve’s CONvent School	[70 %]

Academic Records: [View Marksheet](#)

Projects

Airbnb Clone [Live Link](#)

- Built a full-stack property listing platform with **JWT authentication**.
- Implemented image upload using **Multer**.
- Developed REST APIs for property and user management.

MindMesh AI [Demo](#)

- Developed an AI-based query optimization system using **Gemini API** and **LangChain**.
- Built interactive UI using **Streamlit**.

ILM GPT [GitHub](#)

- Built a conversational AI system with **chat history and session management**.
- Integrated Gemini API with full-stack architecture.

Food Recipe App [Live](#)

- Developed a dynamic React application using external APIs.
- Implemented real-time data fetching and state management.

Car Hub Showroom [Live](#)

- Built responsive UI and integrated backend APIs.
- Managed dynamic car listing data and user interactions.

IQbrain Freelancing Platform [GitHub](#)

- Developed a full-stack freelancing platform with role-based authentication.
- Designed APIs for users and project management.

Technical Skills

Languages: C++, JavaScript, C, HTML, CSS

Technologies: React, Node.js, Express.js, MongoDB, REST APIs

Tools: Git, GitHub, MySQL, Postman, VS Code

Achievements & Certifications

- Solved **200+ DSA problems on LeetCode** ([Profile](#))
- Student Coordinator – AIML Society
- Full Stack Web Development Certification ([Certificate](#))
- Introduction to AI – Infosys Springboard ([Certificate](#))
- be10X Certification ([Certificate](#))
